Code of Conduct

Andino Logística S.A. | Document G02 | Date: 2026-01-10

General principles

We expect all staff to treat others respectfully, take care of company property and be honest with customers and suppliers. These principles apply on company premises as well as when working with customers, on the road and in digital channels.

Gifts and hospitality

Gifts from suppliers worth more than USD 50 must be declared to HR within 5 working days of receipt. Cash and personal discounts offered by suppliers or customers are not accepted. Invitations to events are discussed beforehand with the direct manager.

Conflicts of interest

Anyone with a family or financial relationship with a supplier, customer or job candidate must report it in writing and refrain from taking part in the related decision.

Questions and reports

Any question or report can be raised with the Ethics Committee (extension 4410), which guarantees the confidentiality of the identity of the person who consults it. Retaliation against anyone who reports in good faith is not tolerated.

Breaches

Breaches are assessed case by case according to their seriousness and may lead to disciplinary measures, following the internal HR procedure.

Relations with customers and suppliers

Offers, quotes and contracts are handled transparently. No employee may promise conditions that are not approved by the corresponding policy, or accept commitments on behalf of the company without the necessary authorization. Supplier hiring is decided on objective criteria of price, quality, lead time and compliance.

Use of information

Information about customers, suppliers and the company itself is used for work purposes only. Internal information is not disclosed to third parties nor used for personal benefit. Anyone who leaves the company keeps the duty of confidentiality over the information they had access to.

Work environment

The company does not tolerate harassment, discrimination or intimidating behavior. Everyone has the right to a safe and respectful work environment, and managers are responsible for promoting it in their teams. Situations that affect coexistence must be reported to HR or to the Ethics Committee, which analyze them confidentially.

Use of social media

Staff may express personal opinions on social media, but must not speak on behalf of Andino without authorization nor publish images of facilities, cargo or customers that could compromise security or confidentiality.

Training and annual declaration

All staff receive training on this code on joining and a refresher once a year. Every year area heads confirm in writing that they know and apply the code in their teams.
