Remote Work Policy

Andino Logística S.A. | Document G05 | Date: 2026-03-15

Scope

Administrative areas may work remotely up to 2 days per week, by prior agreement with their manager. Warehouse and delivery staff are not eligible, because their tasks require presence at the facilities or on the road.

Conditions

- The arrangement is agreed in writing with the direct manager and reviewed at the end of each semester.
- Remote days are recorded in the team calendar to ease coordination.
- Availability during regular hours and attendance at convened in-person meetings must be guaranteed.
- Customer meetings and operational closings take priority over remote work.

Connectivity allowance

The company pays a connectivity allowance of UYU 900 per month to those who work remotely on a regular basis. The allowance is paid together with salary and is not paid during leave or in months without recorded remote days.

Information security

Company equipment may not be used on public networks without the corporate VPN. Customer data is not stored on personal devices, in line with the systems use policy. If a device is lost or stolen, the employee must notify the IT help desk immediately.

Workspace requirements

Anyone working remotely must have a suitable space, a stable internet connection and basic ergonomic conditions. The company may offer guidance on setting up the workstation, but is not responsible for personal furniture. Accidents that occur during the remote workday are reported to HR the same day.

Availability and communication

During the remote workday, availability is maintained through the corporate messaging and video-call channels. Customer meetings are coordinated in advance and, where possible, held with the camera on. Absences within the workday are reported to the direct manager as if working in the office.

Evaluation and suspension of the arrangement

The direct manager periodically evaluates the achievement of objectives. The remote arrangement may be temporarily suspended for operational needs, repeated non-compliance or security requirements, with prior notice except in urgent situations.

Special cases

Particular situations, such as temporary relocations or family circumstances, are analyzed case by case with HR and do not create permanent rights. Requests are submitted in writing and answered within a reasonable time.
